

HOWAIDA SAYED

Senior Frontend Developer

 +20 127 014 1771 |  howaidasayed95@gmail.com |  Asyut, Egypt |  [Portfolio](#)  [LinkedIn](#)

PROFESSIONAL SUMMARY

Senior Frontend Developer with 6 years of experience building scalable, high-performance web applications using React.js, Next.js, and TypeScript. Strong expertise in RESTful API integration, state management (Redux Toolkit, React Query), and frontend architecture design. Proven track record in delivering fintech platforms, admin dashboards, and enterprise-grade applications with a focus on performance optimization, accessibility, and responsive design. Experienced in JWT authentication, role-based access control (RBAC), and SEO optimization.

EXPERIENCE

Senior Frontend Developer | freelancer

 March 2026 – now

Zaffa (wedding planning Platform & Admin Dashboard)

Technologies: React.js, Next.js, TypeScript, React Query, tailwind

- Developed end-to-end features including provider discovery, categories, favorites, user profiles, and invitation flows.
- Built scalable admin dashboards for managing users, providers, analytics, reports, and logs.
- Designed modular frontend architecture using feature-based structure and reusable components, improving maintainability and development speed.
- Implemented JWT authentication and role-based access control (RBAC) for secure user management.
- Delivered bilingual support (English/Arabic) with RTL/LTR layouts.
- Integrated APIs using Axios and React Query, improving data fetching efficiency and caching.
- Created responsive UI and interactive dashboards using ECharts.

Psychochino (landing page)

Technologies: React.js, Next.js, TypeScript, react query, tailwind

- Delivered a production-oriented marketing site for a mental-health practice covering services, team, social proof, publications, blog, and lead-focused CTAs

KPI Management System

Technologies: React.js, Redux Toolkit, React query, Antd, tailwind

- Developed dynamic dashboards with drag-and-drop functionality for KPI tracking.
- Optimized API calls, reducing unnecessary requests and improving responsiveness.
- Managed complex application state using Redux Toolkit.

Dnaneer (Financial Platform & Admin Dashboard)

Technologies: React.js, Redux Toolkit, react query, tailwind

- Developed a scalable fintech platform for managing loan lifecycles and investment operations.
- Implemented complex financial logic including interest calculations, VAT, origination fees, and amortization schedules.
- Built secure workflows using RBAC and protected routing for multi-level approvals.
- Integrated RESTful APIs for banking operations and automated reporting systems.
- Improved performance using code splitting, memoization and lazy loading
- Managed asynchronous data using Redux Toolkit and React Query.

Mohlel (Financial Market Analysis Platform & Admin Dashboard)

Technologies: Vue, Nuxt.js, Vuetify, Vuex, TradingView, sass

- Built real-time financial analysis platform with advanced charting tools (TradingView, ECharts).
- Developed subscription-based system with automated billing and authentication.
- Improved SEO and performance through Next.js optimization and PWA features.
- Integrated monitoring tools such as Google Analytics, Tag Manager, and Sentry.
- Implemented full multilingual support with RTL/LTR handling.

E-commerce Themes System (Zid Platform)

Technologies: React.js, redux toolkit, twig, shadcn/ui, tailwind

- Built reusable UI components using component-based architecture and Storybook.
- Reduced development time by ~50% through shared templates and reusable modules.
- Developed virtual try-on feature using MediaPipe Face Mesh and React Three Fiber / Three.js.
- Improved UI consistency and scalability across multiple e-commerce themes.

Fivestars Platform (Web & Mobile)

Technologies: React.js, React Native, Redux, Next.js, bootstrap

- Developed web applications and admin dashboards using React.js and Ant Design.
 - Built cross-platform mobile applications using React Native.
 - Created SEO-optimized landing pages using Next.js.
 - Managed global state across platforms using Redux.
 - Delivered responsive and cross-browser compatible UI solutions.
-

SKILLS

Frontend: React.js, Next.js, Vue.js, Nuxt.js, React Native

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SASS

State Management: Redux Toolkit, React Query, Vuex

APIs: RESTful APIs, API Integration, Axios

Performance: Code Splitting, Lazy Loading, Web Performance Optimization

Styling: Tailwind CSS, Ant Design, Bootstrap, Vuetify

Testing: Jest, React Testing Library, Playwright

Tools: Git, GitHub, Figma

Backend Basics: Node.js, Express.js

Other: JWT Authentication, RBAC, Responsive Design, web performance optimization, SEO, Cross-Browser Compatibility, CI/CD, Docker, frontend architecture, Accessibility, Security, Agile

EDUCATION

Faculty of Science – Chemistry & Microbiology

Asyut University | 2013 – 2017

Grade: Very Good

LANGUAGES

- Arabic: Native
- English: Proficient
